Ainahau Tower

Each Junior Suite features a spacious entryway with a wet bar, a living area with pull-out sofa, coffee table and custom chairs, a flexible work area and entertainment center, an all-new king platform bed, updated monstera print wall coverings, art, new outdoor furniture on the lanai that runs the length of the suite and either a sunrise or a Waikiki skyline vista.

664 refreshed guest rooms

Each updated guest room features botanical surroundings, refreshed lighting, a contemporary seating bench with custom upholstery and a tranquil, coastal-inspired color palette featuring shades of papaya, mocha and sky blue. Guest rooms are offered in king or double-bed configurations.

Crafted by Hawaii's wahine visionaries

Sheraton Princess Kaiulani's redesign was crafted by The Vanguard Theory, a Hawaii design firm led by Michelle Jaime. Local touches permeate throughout — Kailua artist Jenn Ellenburg's photography is featured in each room, and Native Hawaiian-owned NOHO HOME provides the upholstery. Jalene Kanani Hitzeman, Founder, President and Creative Director of NOHO HOME by Jalene Kanani, was inspired to showcase the kui pattern, which represents a form of lei-making, to embody Hawaii's spirit of aloha.
